IIT Bombay

Prof. Avik Bhattacharya

8th October , 2014

TO WHOMSOEVER IT MAY CONCERN

It gives me pleasure to write about my very pleasant association with Mr. Pankaj Kumar. He is one of my third year undergraduate student currently pursuing a course on Remote Sensing and Image processing. I have known him for six months and had the opportunity to observe his strengths during course work.

Mr. Pankaj Kumar is highly motivated, systematic and productive. He is sincere and hardworking. He is a humble and holds high values for ethics and morals. He has a pleasant personality and can mingle within a group well. Apart from his academic work, He is also involved in several other organizational activities at IIT Bombay.

To conclude I would like to summarize Mr. Pankaj Kumar as a very promising scholar who is intelligent, confident and positive. I strongly believe that his ability to carry out independent research work may be the best in his age group.

I wish him well for his personal and professional life.
